SKILLS

Languages: Java, JavaScript, PHP, HTML, CSS
Frameworks: ReactJS, NodeJS, TailwindCSS
Platforms: Git, VS Code
Soft Skills: Leadership, Problem-Solving, Communication, Adaptability

PROJECTS

CreditBridge – Direct Digital Lending Platform | GITHUB Dec' 25

- Built a secure digital lending application using the **MERN** Stack, integrating KYC verification, structured credit evaluation, and automated workflow **pipelines** to ensure compliant and reliable loan processing.
- Designed a clean and responsive admin interface with **React** and **Tailwind CSS**, enabling approval reviews, audit logging, and verification management while maintaining a consistent user experience.
- Improved application performance by optimizing **MongoDB** queries and implemented a modular backend structure, leading to faster response times, scalable data handling, and smoother overall user interactions.
- **Tech Stack:** ReactJS, NodeJS, ExpressJS, MongoDB

NoteCraft – Full Stack Notes Application | GITHUB Jul' 25

- Developed a full-stack notes application using the **MERN** stack, integrating secure authentication, structured **CRUD** operations, and smooth **RESTful API** communication to ensure efficient and reliable data handling.
- Engineered a clean and responsive user interface with **Tailwind CSS**, enabled fast creation, editing, and organization of notes while maintaining an intuitive and consistent experience across all devices.
- Enhanced application performance by optimizing **MongoDB** queries and implemented a modular backend structure, leading to faster response times, scalable data handling, and smoother overall user interactions.
- **Tech Stack:** ReactJS, NodeJS, ExpressJS, MongoDB

TRAINING

MERN Full Stack || Trainee-Web Dev | CipherSchools | Certificate Jun' 25-Jul' 25

- Created a fully functional Notes App using **MERN** technologies, solving several issues in data flow and component structure, and strengthening my ability to create scalable solutions suitable for company needs.
- Crafted **RESTful APIs**, secure authentication, and responsive UI components, solved several problems in state control and backend communication, improved my capability to contribute to production-ready systems.
- Optimized workflow and resolved blockers effectively, solving several structural and logic challenges through Leadership and Communication Skills, prepared me for teamwork in fast-paced development environments.

CERTIFICATES

- Cloud Computing - NPTEL | **Link** May' 25
- The Bits and Bytes of Computer Networking – Google(Coursera) | **Link** Sep'24
- Data Structures and Algorithms - IamNeo | **Link** Dec' 24
- Full Stack Web Development – G.T.B Institute(ISO Certified) | **Link** Aug'24
- C++ Programming – G.T.B Institute(ISO Certified) | **Link** Jun' 24

ACHIEVEMENTS

- Secured 1st position in Prompt Builders 2025 (Powered by A.W.S). Feb' 25
- Earned 2nd rank in Web-e-Stan 2.0 (Lovely Professional University) Feb' 25

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering since Aug' 23
CGPA : **8.50**

Police D.A.V Public School Jalandhar, Punjab
Intermediate Apr 21 – Mar' 22
Percentage: **87.2%**

St. Joseph's Convent School Jalandhar, Punjab
Matriculation Apr 20 – Mar' 21
Percentage: **94.4%**
